ABOUT ME

I am 30 years old, born and raised in Paris. I recently decided to move to Sweden because i'm curious about Swedish culture. Now I'm looking for a new work experience in Stockholm as a fullstack web developer, that will give me some new opportunities to increase my skills and learn more. Ready to bring a fresh perspective to your team and tackle new challenges in the web development world.

WORK EXPERIENCES

Ambulance

Ambulances du Centre I 2022 - 2023

- Emergency call center - SAMU 15
- Transport of sick, injured or patient
- Complete disinfection of the medical vehicle and equipment

Ambulances Joncs Marins/Dalayrac I 2019 - 2021

- First aid care
- Nurse/doctor transmissions
- Monitoring sick patients during transport

EDUCATION

Fullstack web developer

La Capsule I 2023 - 10weeks in a Bootcamp

- **MyMails**: reproduce a model provided by the UI/UX Designer
- **Blackboard**: project build the back office of a scooter e-commerce site with a database with MongoDB and mongoose
- **WeatherApp:** Weather App is an application that displays the weather of cities that you have entered. Use with an API
- **Hackathon (TicketHack)**: create a train ticket reservation site with the frontend and the backend
- **MyMoviz**: web application allowing you to display the latest released films
- **Morning News**: web application that will allow you to display recent news from the Tech Crunch newspapers (create with React and Redux)
